PERSONAL PROJECTS

Testimonial Website
A testimonial is a third-party statement that comments on how good someone or something is . By strategically placing website testimonials on a dedicated 'Testimonials' page, as well as on your 'About Us' page, product pages, and more, you can convince interested users that you're worth their trust.

Shopping Cart
A cart typically has three common aspects: It stores product information . It's a gateway for order, catalog and customer management. It renders product data, categories and site information for user display.

Quiz App
QuizApp is an android based application, and enables the user to undertake a series of questions on Java language. The app is user friendly, and the user shall find it extremely easy to answer the multiple-choice questions. At the end of the quiz, a result-report is generated which states the score

Movie Search App
The purpose of movie websites is to pique interest and sell tickets, they generally include: Plenty of video, including trailers, Easy access to show times and online ticket purchasing, Cast bios and other general info

Todo App
This Todo app can Add, Update, Delete your tasks that you add in daily Todo list . This is a todo mobile application. By using this todo mobile app we can add our daily task into this todo app .
